DAHLE[®]

FOR PRECISION

Professionals Choose Dahle

For over 85 years Dahle has established a reputation for developing safe, innovative products that exceed the demands of its customers. Founded in 1930, Wilhelm Dahle first began producing steel cutting discs for pencil sharpeners. Throughout the years, Dahle's reputation and customer satisfaction have grown worldwide.

DAHLE®

DAHLE CUTTERS & TRIMMERS

Whether you are trimming a single sheet of paper or a stack of 700, Dahle paper cutters will give you the results you desire. Dahle's precision graduated blades give you the ability to shave the tiniest sliver from your paper. Results of this caliber are made possible from over 80 years of cutting and sharpening experience.

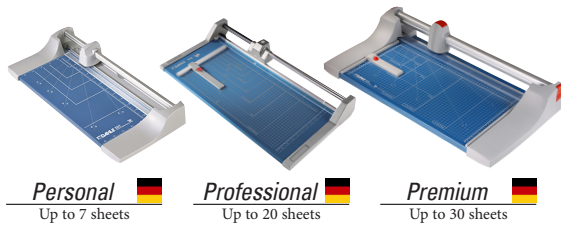

Engineered and developed in Germany, the Dahle name is synonymous with quality and innovation. Dahle offers a complete range of cutting, art, and office products that exceed even the most serious demands for performance. All products are factory tested before release to ensure complete customer satisfaction.

Rolling Trimmers

Dahle rolling trimmers are designed for safety and accuracy. They feature a ground, self-sharpening rotary

blade that cuts in either direction. It's this sharpening action that helps the trimmer maintain a perfectly honed

edge, and produce a clean, burr-free cut. An automatic clamp and carefully screened guides ensure accuracy.

Series	Model	Cut	Capacity	Stand
Personal	507	12 1/2"	7 Sheets	
Personal	508	18"	7 Sheets	
Professional	550	14 1/8"	20 Sheets	
Professional	552	20"	20 Sheets	
Professional	554	28 1/4"	20 Sheets

Premium	585	43 1/4"	30 Sheets	#797

GERMAN ENGINEERED

Dahle products are carefully wengineered in Germany using the strictest standards for quality and safety. Each cutting edge is either CNC milled or precision ground to provide the cleanest cut possible. Our alignment guide is carefully squared by hand to ensure the accuracy our customers have come to expect from Dahle. To guarantee a pleasurable user experience, innovative safety features are integrated into each design. From automatic rotary guards to acrylic safety shields, each product is developed with your personal protection in mind.

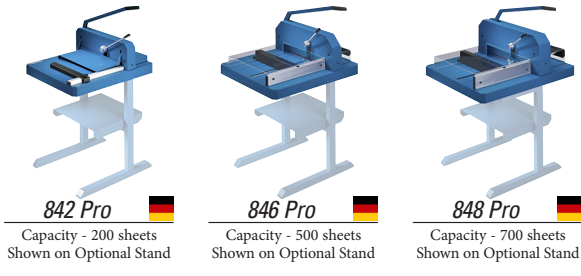

EXPERIENCE

On April 1, 1930, Wilhelm Dahle began producing steel blades for pencil sharpeners in Coburg, Germany. For 85 years we have refined our products to represent the very best available, including features such as our Automatic Cutting System - available only on Dahle's Rotary Sharpeners. Whether you need a fine point or a blunt tip, Dahle's Automatic Cutting System pulls the pencil in, sharpens to the desired setting, sharpens to the desired setting, then spins freely to prevent over-sharpening. This not only gives you a perfect edge, but also prevents pencil waste.

Stack Cutters

Dahle Professional Stack Cutters are manually operated, but make easy cutting of up to 700 sheets of paper at a time. Safety shields can be found on either side of the cut-

ting blade and will not allow the blade to move while they are in the up position. A ground steel blade ensures a clean cut. Optional stands ensure proper height and leverage.

Model	Cut Length	Capacity	Optional Stand
842	16 7/8"	200 Sheets	#712
846	16 7/8"	500 Sheets	#712
848	18 3/8"	700 Sheets	#718

Scissors & Shears

Dahle scissors and shears are designed to accommodate the needs and comfort of both personal and professional users. Our handles are form fitting to gently fit around

your fingers and reduce fatigue during use. With a wide range of sizes and cutting capabilities they are guaranteed to produce a clean, straight cut.

Vantage® Cutting Mats

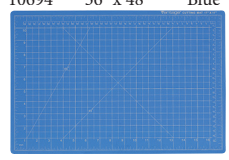

Protecting your work surface is the function of a cutting mat, but there's a lot more to Dahle's Vantage® Self-Healing Mats. These mats are self-healing and constructed using

5 layers of PVC plastic. It's this specialized formation of plastic that allows cuts to just disappear— which greatly prolongs the life of the mat.

Standard Clinch Staplers

The compact Novus B4 and the larger B5 feature a steel driven stapling mechanism that provides superior performance, strength, and durability. The dual guide system

ensures the legs of each staple have even pressure until it clinches your documents. These staplers produce a standard clinch, temporary pin, or tack.

Novus B5
40 sheet capacity

Novus B4
40 sheet capacity

Model	Color	Capacity	Depth	Dimensions
B4	Black	40 Sheets	2 5/8"	5 3/8" x 1 1/2" x 2 1/2"
B4	Blue	40 Sheets	2 5/8"	5 3/8" x 1 1/2" x 2 1/2"
B4	Grey	40 Sheets	2 5/8"	5 3/8" x 1 1/2" x 2 1/2"

B5	Grey	40 Sheets	4 1/8"	7" x 1 1/2" x 2 1/2"

Flat Clinch Staplers

Novus Flat Clinch Staplers not only clinch your documents together, but also press the staple legs flat for up to 30% more filing space. Both sizes feature a steel driven stapling

mechanism that provides superior performance, strength, and durability. These staplers are capable of producing a flat clinch, temporary pin, or tack.

B8FC Power On Demand Stapler

The innovative Novus B8FC incorporates the industry's only Power-on-Demand (POD) technology that requires 70% less effort to staple. Just lift the top lever

and experience the benefits of stapling up to 50 sheets of paper from across your desk! This Flat Clinch stapler also provides up to 30% more filing space.

B17	40 Sheets	11 3/4"	16 1/2" x 2 3/8" x 2 3/4"

Heavy Duty Staplers

Designed and developed in Germany, these rugged staplers are capable of continually stapling large quantities of paper with minimal effort. They feature an innovative

Anti-Blocking System (ABS) which prevents the possibility of a staple jam. A depth guide and Automatic Bypass System is standard on all models.

INNOVATION

Since 1949, the Novus name has been synonymous with quality and innovation. Whether we're developing new technologies, or improving our existing products, we continue to lead the industry in design, performance, and reliability.

Our exclusive B8FC features Power-On-Demand (POD) technology which allows you to staple more paper with 70% less effort. For commercial applications, Novus Heavy Duty Staplers can staple up to 210 sheets and accommodate a variety of staple lengths.

SMARTPOWER

From production to operation, Dahle takes environmental conservation very seriously. This is why Dahle shredders operate using our intuitive SmartPower Energy Management System. This multi-stage system reduces power consumption after ten minutes of sitting idle (sleep mode), and completely powers down to a 0% energy draw after 30 minutes of inactivity. This makes Dahle the most energy efficient shredders on the market. The benefits of Dahle SmartPower will appeal to those interested in conserving energy as well as reducing electrical costs.

Secure information should never fall into the wrong hands. Dahle paper shredders are your best line of defense in preventing unauthorized access to secure information. Whether it's personal credit card state-

ments or Top Secret government documents, Dahle has a shredder that will meet your needs. We offer four series of shredders that provide different levels of convenience features and user options.

PAPERSAFE® SERIES

Dahle Shredder Sizes

There are many things to consider when purchasing a shredder and all the variables can seem overwhelming. Along with sheet capacity, motor size, and waste volume, it's also important to consider how much and how often

you plan to shred, the number of people who will use the shredder, the security needs you require, and your anticipated company growth.

Deskside	Small Office	Office	Small Department	Department	High Capacity
Up to 100 sheets/day 8.75" Feed Width 7 Models Available	Up to 400 sheets/day 9.5" & 10.25" Feed Widths 11 Models Available	Up to 2,000 sheets/day 12" Feed Width 6 Models Available	Up to 8,000 sheets/day 16" Feed Width 6 Models Available	Up to 12,000 sheets/day 9.5" & 10.25" Feed Widths 6 Models Available	28,000 sheets/day (2039x) Up to 2 tons/day (2045x) 5 Models Available

DAHLE Shredders

Standard Features

- ① **All Steel Frame:** Keeps the cutting cylinders in perfect alignment for optimal performance.
- ② **Solid Cutting Head:** A solid block of German Steel is milled to create each cutting cylinder.
- ③ **Door Open Interlock:** Prevents the shredder from operating with the door open. This safety feature is found on all models.
- ④ **Thermally Protected Motor:** Prevents the motor from overheating during extended use.
- ⑤ **Rubber Shock Mounts:** Provides a barrier between the cutting head and cabinet to isolate noise and reduce vibration.
- ⑥ **Shred Bag:** Features gusseted sides to expand to the shredder's maximum internal capacity.
- ⑦ **Wooden Cabinet w/Swivel Casters:** Attractive cabinet blends in with any decor and the swivel casters allow for easy movability.
- ⑧ **SmartPower Energy Management:** Reduces power consumption when idle, and eliminates power use after 30 minutes of inactivity.
- ⑨ **Chain Driven:** Provides slip-free power to the cutting mechanism for maximum throughput.

**Some components not available on certain models.*

DAHLE CleanTEC®

Special Features

- ⑩ **Dust Filtration:** Eliminates up to 98% of the shredder's fine dust particles and provides a cleaner, healthier work environment.
- ⑪ **Safe Technology:** Verbal and Contact Emergency Shutdown. Simply yell "Stop" or hit the top cover and the shredder immediately stops.
- ⑫ **ESP Protection:** The shredder "knows" how much you're shredding and will not operate if sheet capacity is exceeded.
- ⑬ **EvenFlow Lubricator:** This automatic oiler provides slow, continuous lubrication across the entire cutting mechanism.
